

# **McLOUTH POLICE DEPARTMENT**

**MARCUS F. KOCH – CHIEF OF POLICE**

## **August 21, 2018 – City Council Meeting**

1. Corporal Juedes and I conducted active shooter response training on Tuesday, August 14<sup>th</sup> at U.S.D. 342 for the teaching staff during their in-service training. Paul did a great job putting together the Power Point and we were joined by Jefferson County Emergency Services Manager Keith Jeffers who added some valuable information. We are looking forward to return visits at the school to continue working with them to increase the safety of the students and staff.
2. School started last Thursday and I have adjusted back to school zone enforcement; I have visited with administrators and the sheriff's office's school resource officer to discuss any plans and concerns for the new school year.
3. The School's fall sports preview is this Friday and we plan on being present to show our support for the kids as the different teams get ready for their seasons.
4. Everyone is probably aware that the Tractor Pull on Saturday, August 4<sup>th</sup> had a huge crowd. Unfortunately, there were a few disturbances at a couple of the gates and then we responded to a fight in progress in the parking lot – subsequently, one adult and two juveniles were taken into custody on fight-related charges. Thank you to Joel Gill and the security staff as they did a good job handling the large crowd and working well with law enforcement.
5. Distribute July 2018 Activity and Code Enforcement Reports.
